

## Online Services

### Wherever, whenever

Do you desire to execute your financial transactions round the clock and without concerns as to the security dimension? Our solution: VP Bank e-bankingplus.

With our e-bankingplus application, which was developed solely for financial service providers, you have the opportunity to setup users with various authorizations and thereby depict your internal organization.

The easy-to-use navigation of e-bankingplus enables you to become acquainted with the system rapidly and assists you in compiling payment transactions and security trades.

Regardless of fixed office hours, you also have at your disposal the latest information and a wide array of functions.

### Additional functions VP Bank e-banking plus

- 
- User administration

---

  - Issue of authorisations and signatory rights

---

  - Client allocation

### Professional Data Feed

Want to consolidate your client data in an easy manner? With our Professional Data Feed, you receive position as well as transaction-specific data via our standard interface. As a result, you have a quick and simple means of importing the available data into your own portfolio management system.

### Why VP Bank?

We set the standards – even in terms of handling your banking transactions via the Internet. Our innovative VP Bank e-bankingplus is tailored to your needs.
