

## Who we are

### VP Bank - the bank of the best

VP Bank (Schweiz) AG is a wholly owned subsidiary of the internationally active VP Bank Group. Since 1988, we have been offering our clients convincing, personalized solutions.

Performance and trust - this business philosophy has been lived and breathed every day since Guido Feger founded Liechtenstein-based VP Bank in 1956. Today, the ca. 90 employees at VP Bank (Schweiz) AG in Zürich vouch for the same qualities.

Our core competencies lie in the field of asset management and investment advice for private and institutional investors, as well as in the lending business. Our clients particularly appreciate the unbiased advice we offer: we take into account also third-party products and services in our recommendations and can call on a global network of proven partners and experts.

A guarantee for continuity, independence and sustained quality is the fact that a sizeable portion of our parent company's equity capital is held by two major shareholders.

### Why VP Bank (Schweiz) AG?

Our financial strength is regularly confirmed by Standard & Poor's with its «A» rating. We are one of the few officially rated private banks in Liechtenstein and Switzerland.
